

Problem Statement

Project Title: AI-Powered College Admission Chatbot Using IBM watsonx Assistant

The Challenge

Students often face difficulty finding accurate information about admissions, courses, eligibility criteria, fee structures, required documents, and important admission dates.

The Objective

Build an AI-Powered College Admission Chatbot that provides instant responses and guidance to students throughout the admission process.

Key Features

- Course Information
- Eligibility Guidance
- Fee Details
- Admission Deadlines
- Document Requirements
- FAQ Support
- 24/7 Assistance

Expected Outcome

A smart chatbot that improves the student admission experience and reduces the workload of admission staff.
